(ii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of SEBI Listing Regulations listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders’ resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process. (iii) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. We believe that audit evidence obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Information Other than the financial statement and Auditor's Report Thereon.

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report, Business Responsibility and Sustainability report, Corporate Governance and shareholder's information and Company's Annual Report, but does not include the financial statements and our Auditor's Report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course in audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in the regard.

Managements and Board of Director's Responsibility for the financial statements:

The Company's Management and Board of Directors are responsible for the matter stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit (including other comprehensive income), changes in equity and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities, section and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent: and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could

reasonably be expected to influence the economic decisions of users taken on, the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatements of financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide the basis for our opinion. The risk of not detecting, a material misstatement resulting from Fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentation, or the override of the internal control.
- Obtain an understating of internal financial controls relevant to audit in order to design audit procedures that are appropriate in the circumstances, Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statement in place and the operating effectiveness of such control.

The Financial Statements were authorised for issue by the Company's Board of Directors on 28th May 2024. Details of the Company's accounting policies are included in Note 3.

B. Functional and Presentation Currency:

These financial statements are presented in Indian Rupees (INR), which is also the Company's Functional Currency.

C. Basis of measurement:

These financial statements have been prepared on the historical cost basis, except for the following items:

Items	Measurement basis
i) Certain Financial assets and liabilities	Fair value
ii) Net defined benefit asset / (Obligation)	Fair Value of plan assets less present value of defined benefit obligations

D. Current and non-current classification:

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III of the Act. Based on the nature of its activities and the time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

E. Use of estimates and judgments:

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and judgments that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, recoverability of deferred tax assets, provision and contingent liabilities and fair value measurement of financial instruments have been discussed below. Key source of estimation of uncertainty in respect of revenue recognition and employee benefits have been discussed in their respective policies.

Useful lives of property, plant and equipment:

The Company estimates the useful lives of property, plant and equipment based on the period over which the assets are expected to be available for use. The estimation of the useful lives of property, plant and equipment is based on collective assessment of industry practice, internal technical evaluation and on the historical experience with similar assets. It is possible, however, that future results from operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. The estimated useful lives are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets.

Recoverability of deferred tax assets:

In determining the recoverability of deferred income tax assets, the Company primarily considers current and expected profitability of applicable operating business segments and their ability to utilize any recorded tax assets. The Company reviews its deferred income tax assets at every reporting period end, taking into consideration the availability of sufficient current and projected taxable profits, reversals of taxable temporary differences and tax planning strategies.

Fair value Measurement of financial instrument:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Provisions and contingent liabilities:

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized in the financial statements. Contingent assets are neither recognized nor disclosed in the financial statements.

2. Significant Accounting Policies:**Financial Instruments:**

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash & Cash Equivalents:

The Company considers all highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost:

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income:

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial assets at fair value through profit or loss:

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition.

The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through Profit or loss are immediately recognised in statement of profit and loss.

The Company has made an election to present subsequent changes in the fair value of equity investments as other Income in the statement of profit and loss.

Financial liabilities:

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments:

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments recognised by the Company are recognised at the proceeds received net off direct issue cost.

DE recognition of financial instruments:

The Company de recognises a financial asset when the contractual rights to the cash flow from the asset expire, Or when it transfers the financial asset and substantially all the risk and rewards of ownership of the asset to another Party. On derecognition of a financial asset, the difference between assets carrying amount and the sum of Consideration received or receivable or the cumulative gain or loss that had been recognised in the Statement of profit and loss.

The Company derecognises financial liabilities when and only when the Company's obligations are discharged, Cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and The consideration paid and payable is recognised in the statement of profit and loss.

F. Impairment:**Financial assets (other than at fair value):**

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. In determining the allowances for doubtful trade receivables, the Company has computed the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Non-financial assets:**Tangible and intangible assets:**

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e., higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

G. Property, Plant and Equipment / Depreciation:**(i) Recognition And Measurement:**

Items of property, plant and equipment are measured at cost, less accumulated depreciation, and accumulated Impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labor, and other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

Capital work-in-progress: -Projects under which Property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

(ii) Subsequent expenditure:

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Expenditure during construction period:

Expenditure/Income during construction period (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under capital work-in-progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as capital advances under "other non-current assets".

(iv) Depreciation:

Depreciation is provided on the straight-line method as per the useful life prescribed in Schedule II to the 2013 Act except in respect of following categories of assets in whose case the life of certain assets has been assessed based on technical advice taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, maintenance support etc.

The Company reviews the residual value, useful lives and depreciation method annually and, if current estimates differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

<u>ASSET</u>	<u>USEFUL LIVES (IN YEAR)</u>
Premises	60
Furniture's & Fixtures	10
Vehicles (Cars)	08
Motors Cycle	10
Office Equipment's	05
Computers & Printers	03

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective. Assets costing Rs. 5,000 and below are depreciated over a period of one year.

An item of property, Plant & equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and equipment is determined as the difference between the sales proceeds and the carrying amount of asset and is recognized in profit and loss.

H. Intangible Assets:

(i) Recognition and measurement:

Intangible assets including those acquired by the Company are initially measured at cost. Such intangible assets are Subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

(ii) Subsequent expenditure:

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures are recognised in profit or loss as incurred.

(iii) Amortisation:

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over the estimated useful lives using the straight-line method, and is included in depreciation & amortisation in statement of profit and loss.

The estimated useful lives are as follows:

Club Membership	99 years
-----------------	----------

Amortisation method, useful lives and residual values are reviewed at the end of each financial year & adjusted if appropriate.

I. Inventories:

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

J. Employee Benefits:

i) Short Term employee benefits:

Employee Benefits such as salaries, allowances, and non-monetary benefits which fall due for payment within a period of twelve months after rendering of services, are charged as expense to the profit and loss account in the period in which the service is rendered.

ii) Post- Employment benefits:

No provision has been made towards retirement benefits as in the opinion of the board; none of the employees are eligible for the same.

I. Provisions, contingent liabilities and contingent assets:

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provision is recognised at the best estimates of the expenditure required to settle the present obligation at the balance sheet date. If the effect of the time value of money is material, provisions are discounted using a pre-tax rate that reflects, when appropriate, the risks specific to the liabilities.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non - occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

K. Revenue:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment net of taxes or duties collected on behalf of the government. The specific recognition criteria described below must also be met before revenue is recognized.

- ii. a) Brokerage income and transaction charges are recognized on the trade date of the transaction upon confirmation of the transaction by the exchanges
- b) Trading income is recognized when a legally binding contract is executed.
- c). Depository & related income is accounted on accrual basis.
- d) Depository transaction charges are recognized on completion of respective transaction. Annual maintenance charges for depository accounts are accounted as and when the services are rendered
- e) Income from portfolio management fees is recognized on the basis of agreements entered into with the clients and when the right to receive income is established.

iii. Rental income:

Rental income is recognised as part of other income on a straight-line basis over the term of the lease except where the rentals are structured to increase in line with expected general inflation.

iv. Dividend:

Dividend from investment is recognised as revenue when right to receive the payments is established.

v. Interest income:

Interest income is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instruments but does not consider the expected credit losses.

L. Income tax:

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax:

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets or liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities, but they intend to settle current tax liabilities and assets on net basis or their tax assets and liabilities will be realised simultaneously.

Minimum alternate tax Credit Entitlement:

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes a deferred tax asset on the MAT credit available only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The Company reviews the deferred tax asset created on MAT credit entitlement asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

M: Borrowing costs:

Borrowing cost are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest cost) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of cost of asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

N: Earnings per share:

The basic earnings per share ('EPS') is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equities shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit/(loss) after tax for the year attributable to the equity shareholders and the weighted average number of equities shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

O: Foreign currency transactions:

In preparing the standalone financial statements of the Company, transactions in currencies other than the Company's functional currency (i.e., foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of initial transactions.

Exchange differences on monetary items are recognised in the statement of profit and loss in the period in which they arise.

P: Cash and cash equivalents:

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term deposits with banks that are readily convertible into cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.
