- HIGH Risk Client
- HIGH Net worth Client.
- Client of Special Category

RISK MANAGEMENT POLICY:

The Company shall at its discretion and as per the requirements of the Governing and Regulatory Bodies collect upfront Margin, Initial Margins and Mark to Market margins from the clients. In addition, the margins so collected can be topped up as required and exposures of the clients so be adjusted that can vary from client to client basis and on Market conditions.

Based on the Risk profile of the clients, their trading pattern and their funds flow, the client would be allowed the exposures for intraday, in case of delivery the regular settlement procedure of T+2 will be followed. If the pay in amount is not received from the client on the due date, the shares can be transferred to CUSA Account or Direct Designated BO Account and such positions would be made squared off for the recovery of debit balance. The same shall be at the discretion of the Management.

For Derivative segment, The Exposure for Futures and Options writing will be based on the SPAN margin as notified by the Exchange from time to time and such additional margins as may be required, as per market volatility may be collected. For buying of options, the exposure is allowed only on clear credit balances. Allowing stock as Collateral after hair cut or any other form as specified by the regulators from time to time, is at the discretion of the management.

The Company shall on its discretion maintain the non-cash component of the client as a percentage of the cash component and the same can vary from client to client basis. The Management is allowed to take the above decisions and the same shall be monitored on a regular basis by the Automated Software that is in place. The automated software shall compute the capital available towards the exposure on an online basis, the policy for such exposure shall be entered into the system by the Surveillance team in coordination with the management team and Compliance Officer as a part of RISK MANAGEMENT SYSTEM.

Exposure is allowed as a multiple of the margin for intraday and Derivatives through MIS window and as a multiple of CNC for delivery of stocks. The sell limit in case of deliveries held with us is allowed through CNC. The above is subject to maintenance of Upfront Margin.

The effective Risk at RMS is controlled at various levels by using the following parameters:

- Qty Limit for each order

- CIN No.: L67120AP1994PLC017583
- Corporation Members : NSE (CM+F&O+CDS) & BSE (CM)
- Depository Participant : CDSL
- SEBI : INZ00026734

- Value Limit for each order
- Value Limit for each User ID
- Value Limit for each Branch ID
- Security wise for each User ID
- Max Qty & Max Value Limit for single order for each NNF Dealer ID
- Pending order Limit
- And any other such parameters as may be required from time to time.

The above limits are set up under the guidance of the Compliance Officer, based on our Capital adequacy requirements and risks of the corresponding Clients, User ID, Branch ID, Volatility of the Security and based on market conditions.

Such Limits are reviewed regularly.

To set the Limits to the Clients for trading Exposure, the financials, Collaterals as pledge and open positions are updated into the CTCL systems through file formats on daily basis along with the set limits to the clients as per the company policy, which may vary based on the regulatory requirements and market conditions and client to client.

As a policy, the Company always allow a set limit and does not allow any unlimited limits to the Clients Or User IDs.

Daily record of limits set and re-set are preserved.

All the above are monitored by the RMS Team under the supervision of Compliance Officer. The Compliance Officer will be reporting the same to the Management and the Exchanges on Regular Basis (Quarterly Basis to the Exchange.)

RISKS CONTROL:

The trading rights of the clients shall cease once the client utilizes 100% of the allocated exposure or is @ 50% of loss to the capital computed for exposure calculation.

Upon 75% of the clients' capital loss, 50% random position shall be made squared off by the client, subject to client not infusing clear funds to its margin requirements and / or to cover its loss.

Upon 100% of the clients' capital loss, the entire position of the client shall be made to be squared off. ISL reserves the right to square off such transactions. The loss is a % of the capital computed for exposure calculation as per the company policy.

Whenever the position of a client is reduced for want of Margins or non-fulfillment of Obligation, Such transaction will be flagged in the Contract Note.

The policy framed by the Management for allocating exposure to the Client may vary from time to time
